As a proud UK-based business, able to trace its heritage back to the 1700's, Daler-Rowney manufactures all of its mountboard at its dedicated facility in Bracknell, Berkshire. From here, products are supplied to the fine art and framing markets in over 100 countries worldwide.

Note: We offer a bespoke service, subject to minimum order quantities.
Please email us: boards@daler-rowney.com

Mountboard Selector

Conservation

A truly Professional Conservation board, which conforms to Fine Art Trade Guild standards (level 2) for Conservation. The core is made from alpha cellulose fibres, featuring a soft natural white colour that remains white. Each board is alkaline sized, acid free and calcium carbonate buffered for enhanced durability and longevity. Being conservation quality, boards are lignin free with no optical brighteners. Cover papers are colour fast, resilient and bleed resistant.

2

Mountboard Quality Standards

White Core Plus

These boards feature a conservation grade core made from alpha cellulose fibres. The soft natural white colour remains white over time and the core offers a clean, crisp bevel cut. Each board is lignin free, alkaline sized, acid free and calcium carbonate buffered to enhance its useful lifespan by minimising the effect of atmospheric pollutants. The range is available in a comprehensive selection of over 90 colours and textures and conforms to the Fine Art Trade Guild standards (level 3) for mountboard.

3

Mountboard Quality Standards

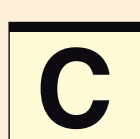

Black Core

Daler Rowney Black Core board features a deep black coloured core offering a distinctly different appearance. Each board is lignin free, alkaline sized, pH neutral and is calcium carbonate buffered to enhance its natural lifespan by minimising the effect of atmospheric pollutants. The range conforms to the Fine Art Trade Guild standards (level 4) for mountboard.

4

Mountboard Quality Standards

Cream Core

The core is made from virgin wood pulp with a characteristic pale ivory colour. Each board is alkaline sized and pH neutral. The range is available in a wide variety of over 90 colours and textures and meets Fine Art Trade Guild standards (level 4) for mountboard.

4

Mountboard Quality Standards

Core

- pH neutral
- Acid free
- Lignin free
